The schooners Richard Vanz and Alfarits Campbell were in collision off Fort Schuyler yesterday. The Vaux lost her flying libboom and headgear.

Durposes:

The purpose of the company is to purchase, hold and manage the Madison Square Garden property as a place of public entertainment and aumaement. The p'ans of the gentlemen interested in the matter were suggested by the efforts which have been made by various persons to purchase this proparty for private purposes, and the danger that it might be split up into smaler parcels or devote it uses which would be to no public benefit. It is the intention of these gentlemen that this central block of round shall be reserved and perpetually used for the purposes of the community at large.

These gentlemen and their associates took the matter up, and intend to carry it out, as a public-spirited enterprise, which they behave will be an advantage to the city and of use to its citizens and visitors. They have insugurated the enterprise with the determination that it shall be a permanent one, and with the hope that having taken the pre-liminary stems for securing to the public the use of this property, they will receive the suggestions and co-operation of all citizens who believe that such an enterprise will be a marful one. was overcome by escaping gas yesterday at No. 121 Mulberry-st.

The Armory Board yesterday recommended the releasing of the 22d Regiment Armory in West Fourteenth at. for one year from May 1.

The Archer Pancoast Manufacturing Company yesterday filed plans for a factory at First-ave. and Thirty-third st. to

Pebruary 3, was taken yesterday to the Poughkeepsle Insane

of all citizens who believe that such an enterprise will be a useful one. The details of the plans for the development of the property are not yet perfected. The idea of the gentlemen interested is that the present structure on this block shall be torn down during the coming summer and that in its place shall be erected a large permanent exposition building. The general plan which has been so far discussed is that the ground door of this building while be used, as at present, for a large a auditorium or amphitheatre, to be used for such general purposes as the present Garden has for some years past been used, and in addition to this, for all kinds of shows and exhibitions which require space and a central location, such as flower-thows, horticultural, agricultural, mechanical industrial, antiary and other exhibitions, and for all sorts of fairs and arge meetings. shows, horticultural, agricultural, mechanical industrial, smutary and other exhibitions, and for all sorts of fairs and large meetings.

It is expected that the building will be so arranged on the ground door that there will be permanent seats around the edge of this amphitheatre, and that the amphitheatre itself can be utilized as an auditorium whenever occasion requires, suitable tor political and other great public meetings. As this will leave a considerable space about the edge of the building under the raised seats, it is proposed to construct under these seats a series of arcade shops or small stores, about thirty in number, which will upon upon the streets surrounding the block.

It is also proposed to excavate for a basement, which will be used for various purposes. For instance, for stalls to be occupied by horses at the horse shows and by animals when a circus is in progress in the garden, which will be adapted, as heretofore, not only for the circuses, but for the accommodation of the animals belonging to the circuses, and for their ready inspection by visitors. In the interior of this basement there may be autiable provision the purposes of which would be suited by art detail light.

On the second floor, on the Maisson Square front, the plan is to have a constortable theatre, and perhaps, in addition to this, to not here of the other sides of the building, to have a smaller theatre for amateur entertainments; with can be added to concerts and private theaters for an autine on the suitable dressing rooms and supperrooms. George Washington Tibbitts, who has been for six years in the Post Office service, was arrested yesterday on a charge of stealing fourth-class mail matter from the General Post Office He was held in \$2,500 ball by Commissioner Shields.

and Pike sta. yesterday and was removed to the Gouverneur Slip Hospital insensible.

borhood of Fifth-ave, and Central Park will be held in the Arsenal in Central Park to-morrow morning for the parpose or considering the removal of the menagerie in the Park from its present place near the Arsenal and to approve a bill that has been presented at Albany providing for this removal. For several years the menagerie, in its present location, has been opposed by Fifth-ave, property owners. They have nryed that it is impossible to drain the ground on which it is placed so as to prevent bad odors. A year ago a delegation appeared before the Board of Estimate asking that the menagerie be removed and subsequently a meeting was held in the Arsenal to propare a bill for this purp ise. These efforts failed as no money could be obtained for the removal. In discussing the objections with Superintendent Couklin, it was said tout there was no opposition to the menagerie itself, but that it was recognized as one of the most popular and interesting features for the general public in Central Park.

President Borden of the Park Department said yesterday that the removal of the menagerie will take place if the bill now before the Legislature is passed and there would then be established what would be a Zoological Garden that in time might equal those of London or Berlin. The Department has retrained from making any changes in the present site owing to the objections of property-owners. The site proposed is beyond the reservoir and between it and the Transverse Road. It is an irregular piece of ground well-fitted for such a collection and will not eneroach on the park mendows. The dranage will be direct into a sewer in the Transverse Road. A zoological collection, Mr. Borden thought could not be more centrally placed for the public convenience and in a position where it would be less objectionable. Among those interested in calling the meeting to morrow are C. A. Postley, David Dows, Heber R. Bishop, Josiah M. Piake, Thomas Rutter, Louis Wormset, H. Knickerbacker, J. A. Bostwick, D. O. Mills, and William A. Rockefelle Clarence H. Young, '88, the vice-president of the Barnard Literary Association, has been invited to preside at the the college in April.

The interest of the Columbia College students in the course The interest of the Columbia College students in the course of Lenten lectures delivered in the college chapel on Wednesday mornings was shown by the number of students present yesterday. The authlect was "Purity," and the Bev. Dr. George R. Van De Water spoke with great force and earnestness as he urged the young men to be pure in thought, pure

A new American industry is about to be undertaken in the manufacture of enamelied iron plates or tablets for advertising purposes. These are already in general use in England, France, Germany and Belgium. James Willing, of London, expects acou to establish works for their manufacture, possi-

yesterday C. L. Rickerson introduced a resolution reafarming the Board's action in 1885 in regard to the water A consin of "Joe Golding," Miss Danvray's erratic admirer, called on the actross yesterday, and, thanks to her represen-tations and Miss Dauvray's kindness, the young fellow was released yesterday afternoon. It was arranged however,

leaces, should be abolished by the Dock Department; and that a system and plan for covered public wharves to be need by no exclusive class of trade should be fostered, and recommended by the Mayor, as the demand of this city; also, disapproving the bill now in the Assembly to permit the sheading of deep water-piers. Waido Smith requested that the resolutions be rerend, as he had given no attention to their reading. Morria S. Wiss contended that the language of the resolutions was too ambiguous and suggested an amendment to the effect that the Dock Department should be restricted in its powers so that an adequate system and plan for covered wharves may be secured for the best interests of commerce. In this form the resolution was adopted.

Ambrose Snow presented the following resolution:

In view of the decay and rapid disappearance of our foreign come erec under our own flag, it is the sense of this body that the Government should come to its relief in the form of a bounty which will enable it to compete successfully with the merchant marine of other countries.

Mr. Snow added these remarks: have been married to R. Germaine, an actor in the same com-pany on Tuesday. Germaine's real name is William M. Baxter, and it has for some time been unierstood by his friends that he was about to marry Miss Granger.

"Joe." Cotton defeated "Al." Smith in a cushion-carrow

billiard match of 200 points, for \$500 a side, at Sexton's plac yesterday afternoon by a score of 200 buttons to 126. Th game lasted through 123 innings which took a little over two

requesting the Legislature to re; eal or to modify the charters of the companies proposing to build bridges over the Hudson so as to require them to construct such bridges on the supen-sion or cantilever system, in order to obviate the danger to

Mr. Snow added these remarks:

View it in whatever light we may, relief in the form of an setual money contribution from the Treasury must be provided or this great industry must sink out of existence. The question of faxing one class of people for the benefit of another, the question of free ships as a means of relief, need not be raised at this juncture; the time for any other relief to be effective than that suggested in the resolution has long since passed. To be or not to be is the question; whether the better to face the expenditure of a large sum of money to save this industry, or whether this better to save the money and part with the industry. The beauties of free trade and be boner of protection need not be discussed. Opinions on the beauties of the trade and the boner of protection need not be discussed. Opinions on the guestion discuss whether the people of this country need assumant marine, and if they decide that they want any hare of the ocean commerce of the world, then the question are ten in coonsider is, what sacrifice in money they are willing to make.

The resolution was adonted, as was also a momercial to Oram, of the Society for the Suppression of Vice, objected. In the Special Sessions Court yesterday Edward D. Mann, the publisher, was fined \$50, and Bernard Mchan, who sold the

her.

Owing to the absence of a juryman Coroner Lindaay was compelled to adjourn the inquest in the case of Miss Fannie Briggs last evening until to-night.

The question whether the bar at the Oxford Cinb shall be open on Sunday has arifated the members and entered into the annual election of directors on Monday evening. The following were chosen by a large majority and most of them are said to favor having the bar open all the time: William It. Nichola, Wayland Trask, William Berri, Charles H. Brush, Albert Ammerman, J. Theodore Baldwin, William C. Wallace, Charles N. Manchester, N. Townsend Thayer, Warren S. Sillcocks, Samuel S. Beard and James E. Dean.

Mayor Whitney has conferred with the electric light and gas companies in reference to reducing the bids so as to bring the cost of lighting the streets within the appropriation. The latter say that they have made reductions many times and can afford no more. President Cooper, of the Municipal Electric Light Company, opposes reducing prices, but proposes to give enough free lights to the city to make up the dedicincy.

NEWS FROM THE SUBURBS.

REMOVING BONES OF DISTINGUISHED PERSONS. REMOVING BONES OF DISTINGUISHED PERSONS.
The work of disinterring bodies in the old burying-ground
at Newark for removal to Fairmount Cemetery was begun
yesternlay under supervision of a committee of Aldermen.
The ground is in the heart of the business section of the city
and was originally dedicated when church and municipality
were identical. For many years there has been doubt as to
the cownership, both the city and the First Presbyterian
Church a wealthy corporation and the first church selety
ever formed in Newark, claiming it. By an act passed by the
Legislature recently the city was authorized to remove the
bones and convert the ground to temporary market purposes.
The bones are those of old town officials, preachers, prominent
business and professional men and Revolutionary soldiers,
with their families. The gravestones have been defaced and
broken and finally carted off, and the graves so trampled that
they cannot be distinguished. Surrounded by factories, stables and roum shops, the ground has also been the depository
of all kinds of refuse, and the recevt of the vicious at night.
The plan is to gather all the bones that can be found and
place a monument over them in Fairmount Cemetery.

CHARGES AGAINST A LONG ISLAND JUSTICE. CHARGES AGAINST A LONG ISLAND JUSTICE. There was considerable comment in Gles. Cove, L. I., yesteriay when it was learned that charges would be made before the Queens County Grand Jury then in session at the Court House, Long Island City, against Justice of the Peace Samuel Frost, of Glen Cove, charging him with malicasance in office, retaining fines, etc. Mr. Frost, who is aerily seventy years old and has held the office of Justice of the Peace for over thirty years, said to a reporter yesterday: "This effort to have me indicted has grown out of the liquor trials that have recently been held before me." The Grand Jury the greater part of the day were hearing testimony in the case, but it was understood that they found no indictment.

COLONEL INGERSOLL NOT OUT OF THE CASE. It was reported yesterday that Colonel Robert G. Ingersoll had withdrawn from the suit of Charles A. Nichols gersoll had withdrawn from the suit of Charles A. Nichols against Lawrence Barrett and had engaged er-Governor Robinson, of Springfield, Mass. as a substitute. Colonel Ingersoll denied the rumor and said to a Tamure reporter: "I have retained Mr. Robinson as assistant counsel to help me with the case when it comes on in the June term of the Supernor Court at Springfield. The context is over a bill of exchange for \$5,000 which Mr. Barrett refused to honor. I know nothing of the plaintiff beyond the fact that he lives at or near Epringfield. The suit is really between the American Exchange in Europe and Lawrence Barrett, and is a mere matter of bookkeeping over old accounts. Mr. Barrett, I may say, does not owe the amount for which he was drawn upon."

HE MUST HAVE HAD A LIVELY NIGHT Kate Singleton, an actress who confesses to thirty-nine years, but who had a youthful exuberance of color in her apparel, was the complaining witness yesterday against Henry on, a gas man's helper at the Third Avenue Theatre. Bropson, a gas man's helper at the Initia Avenue Theatre. While the actress was performing in "Romany Rye." on the night of February 14, she left her pockethook in her dreasing room. She missed it and Bropson was suspected. The actress has a fondness for old coins and she had in her pocket book an American coin of the date of 1787 and a Chinese Recorder Smyth asked her to describe the American coin.

Recorder Smyth asked her to describe the American coin.

She said that it had the words "We are one" with thirteen
stars on the face and on the reverse. "Mind your own bustneas." She correctly described the coins and said they were
worth \$50 each.

The Recorder in delivering the charge to the jury said that
he did not believe much in the high value of single coins, so
that he only submitted the question of petty larceny to the
jury. Bropson was convicted. He apparently had an eventful evening on February 14, as there are one or two charges
of their and an indictment for assault on that night to which
he may have to answer.

FAILURE OF CLOTHING MANUFACTURERS. FAILURE OF CLOTHING MANUFACTURERS.

L. Levenson & Co., manufacturers of ciothing at No. 515
Broadway, made an assignment yesterday to David Davies.
They prefer Amelia Vogel for \$20,470.05, the Mechanica' National Bank for \$25,000, this being the amount of five notes discounted by the bank, and L. Bocowitz, \$11,000. The firm was composed of Louis and Michael and Max L. Levenson, The first two have been in business in this city since 1862 and before that had been in business in Louisville. The last was admitted a partner: in January, 1882, and is a son of the senior partner. In May last they made a statement and showed a net surplus in the business of \$2.60. Had collections and poor business generally are given as the reason for their failure which was in the main a surprise to the train. It is said they owe in round figures \$280,000, but no approximation of their assets can be had at the present time.

CARING FOR THE CONVALESCENTS. The anniversary of the Home for Convalencents was held yesterday afternoon in the Fourth Avenue Presbyterian Church. Mrs Rebecca Collins presided. Rev. Dr. Howard Church. Mrs Rebecca Collins presided. Rev. Dr. Howard Crosby read a report of this work of the House, which was organized in 1880. Since that time more than 700 convalescents have been care i for. The Home is at No. 43 East. Eighteen paid on it. The work has ateadily increased and more room is now needed. The receipts last year were \$1.792, and a balance of \$728 remained. The Rev. W. T. Sabline made an address. Among those present were Mrs. Janes Wood, Mrs. Alexander Buchanan, Mrs. Ersatus Clark, ir., Mrs. 6, arah K. Bourne, Miss Louisa Houghton, Mrs. Bradford Rhodes.

GENERAL SHALER WAITING FOR A SUCCESSOR. General Shaler was at the office of the Health Board until the close of business hours yeaterday valinly waiting for the appearance of a successor. His friends said that he felt con-fident of being reinstated by the courts. Mayor Hewitt said that he had not received a positive reply from the man to whom he offered the place after it was declined by Professor Chandler.

NEW-YORK ATHLETIC CLUB ELECTION. he result of the annual election of the New York Athletic Club, which was not announced till an early hour yesterday me ning, retains William R. Travers as president. Mr. Travers me, aing, retains william II. Travers as president, Mr. Travers secured the full number of votes cast, 494. A. V. DeGolcouria was re-elected vice president with 491 votes, the same number as elected Otto Rohl secretary and Henry A. Rogers treaturer. Captain Schulyer was also re-elected setting 488 votes. The regular ticket of governors was elected with the exception of putting J. Malone Beckwith in the place of C. G. Peterson.

TRANSATLANTIC TRAVELLERS. Sailed yesterday by the Aller (North German-Lioyd) for Southampton and Bramen: Mr. and Mrs. G. A. Armour Professor Bickmore, Dr. and Mrs. F. A. Breisky, Emil Jachar, S. Loeb, Miss Lilli Lehmann, Justin McGarthy, Kiss McCarthy, George H. Fendiston, Mrs. Bayard Taylor, and Miss Taylor.

FLICTING DATES IN THIS REGION. The delegates to the National Baseball Convention at the Fifth Avenue Hotel finished their duties yesterday

The delegates to the National Basenali Convention at the Fifth Avenue Hotel finished their duties yesterday and then scattered back to their distant homes. All disputes had been amicably settled, the St. Louis and Kansas City clubs ceased to exist, and the birth of Indianapolis as a League club was announced. The two defunct members received a sum of mouey for their resignations, and now nothing but harmony and good will exists in the baseball world. Each delegate felt sure that his club would win the pennant and many of them were apparently eager to back their opinions with money. Yesterlay's meeting convened at 10 a. m. and was the shortest session of the three. A. G. Spaulding announced for the committee that the Kansas City club had at last consented to accept the \$6.000 offered by the League and it surrendered its franchise and players. Radford, the little right-fielder, was sold to the Metropolitans for \$500. He will stay in that position on Staten Island. Basett and Hackett cost the Indianapolis club \$500 each, while O Brien, Whitney, Donnelly and Myers cost the Washinston club \$2.500 together. Five players, Weldman, Brady, Lillie, McQuery and King, were held in boudage by the League to be auctioned off later to the highest bidder. The first two will probably go to Detroit. By selling the players the League will about cover its outlay of \$0.000 to the "Cowboya." F. K. Stearns was elected a director in place of Menges. The schedule was then adopted after considerable discussion. The Pittaburg club demanded a reduction of the tariff, and after a long debate received the same privilege as Washington—a right to charge only thirty-five cents admission fee to the charge and players.

A resolution was adopted "That on any vacant date in the championship season the home club be permitted to

TROUBLE IN THE AMATEUR LEAGUE.

the Amateur Baseball League met last night to try to come to some awreement on the schedule for the coming season. The Staten Island and Bergen Point represent-atives insisted on having the schedule arranged so that they could play at home on Saturdays. The other dele-gates refused emphatically to concede this and the meet-ing was without result. It is understood that this prac-tically requires the dissolution of the League.

A DRUGGIST'S MISTAKE.

I am a wood carrer by trade and it is out of my line to write letters; but my wife thought it was no more than right that I should let you know what your remedy has done for me, and I think so too. And even when I have said all I can say, I fear I shall fall short of giving you

an impression of the facts as they really are.

I live in East 157th atreet, west of Third avenue, and have lived there for about twenty-three years, where I own real estate. Up to the time I am about to mention I had been a strong well man. There was always more or less malaria in the neighborneod, but I had not per sonally suffered from it. It was in 1880 I had my first attack. It came on as such a tacks commonly do, with headaches, loss of appetite and ambition, chilly sensations, with alight fever afterward, a disposition to yawn and stretch, and so forth. I was employed at that time at Killians & Brothers', furniture manufacturers, in West 32d street. I hoped the attack would wear off, but as it didn't I consulted a well-known and able physician in Morrisians, who gave me quinipe and told me what to do. I can sum up the first four and a half or five years of my experience in few words. Occasionally I was laid up for a day or two, but on the whole I stuck to my work. 1 kept taking quinine in larger doses from yes to year, and kept on getting weaker and corse, slowly but surely, all the time. My trouble was now well defined and its symptoms were steady and regular. I had dumb ague in its worst form, and it was grinding me down in spite of all that I could do or the doctors could do. It held me in a grip like Are in a burning coal mine The poison had gone all through and over me and nothing was able to touch it. I was fast losing flesh and strength, and about March, 1884, I knocked of work

all I could tell.

At this point begins a part of my experience that I had rather die than go through again. It lasted less than two years, but they seemed like a hundred. At the best rapidly that I soon became unable to walk any distance. Later I went from room to room in my own house only by friends holding me up by each arm. The doses of quinine were increased until I often took thirty grains at a dose. The effect of this tremendous stimulation was to make me nearly wild. It broke my sleep all up, and I ften walked the floor, or staggered about it, all night long, scarcely able to bear any noises or even human speech. My temper was extremely trritable. As to ood, one of my little children would eat more in a meal than I could 'n a day. I would order food and then turn from it in disgust. I lived on quinine and other stimu-lants and on myself, like a bear in winter. The quinine set my head in a wairi, and the liquor-given as a med-feine-made my stowach so sick that I could not toler-

One pleasant summer day, being a little better, I went on a visit to my mother in Astoria, Long Island, in ing to return at night. There I was so overcome by the exertion in my weak state that my relatives thought I would die. It was several days before I got strength to return. I had my sick week and my comparatively well week, but it was half-past eleven o'clock every morning before my hands would have any feeling of warmth in them, and regularly at five in the afternoon they became cold as stones again. From 175 pounds (my proper weight) I ran down to 97 pounds—the weight of a light girl—and was scargely bet-

ter than a skeleton.

If anybody had taken a hatchet and knocked me down

and killed me I should have been better off. During the latter part of this period, early is 86, my physician said: "Miller, there's no use in my taking any nore money of you, I' can't do you any good. I might pour pounds of quinine down your throat and it wouldn't help you."

On the strength of this I gave up the use of quintne

altogether, and made up my mind to do nothing more and take my chances. Three weeks afterward-about the last of May-my

wife saw an advertisement of Kaskine (the new quitnine) in a New-York paper. She told me of it. I said: "Stuff and nouseuse ! It can't do me any good." But she went to a druggist's, nevertheless, to get it. The 'druggist advised her against Kaskine; he said it was nothing but sugar; that she ought not to throw away her money on it, &c. He said he didn't keep it, but could get it if she insisted on having it Turning away in disgust my wife stoke to our neighbor, Mr. A. G. Hegewald, who got her a bottle at a drug store in Sixth avenue.

began taking it. In one week I was better. I began to sleep. I stopped " seeing ghosts." I began to have an appetite and to gain strength. This was now the first of June, 1886, and by the end of that month I was back atimy bench at C. P. Smith's scroll-sawing factory in 116th street, where I work now. Since then I have never lost a day from sickness.

Taking Kaskine only, about forty pellets in four equal doses a day, I continued to gain. The malaria appeares to be killed in my system, and now I've got back to my old weight—175 pounds—and my old strength to labor. I am an astonishment to myself and to my friends, and if Kaskine did not do this I don't know what did. The only greater thing it could do would be to bring a dead FREDERICK A. MILLER. 630 East 157th Street, New-York.

P. 8. -For the absolute truth of the above statement I refer to the following gentlemen, who are personally acquainted with the facts: Mr. Alexander 156th St. : Mr. George Seaman, 158th street and Courtlandt avenue; Mr. A. Meobus, 154th street and Court landt avenue: Mr. P. F. Vampel, 154th street and Court-Mr. John Renshaw, 124 125th street, and many others. I will also reply to letters of inquiry. F. A. M. We submit that the above astonishing cure, vouched

for as it is by reputable men, is deserving of a thorough and candid investigation by thinking people. And we further submit that when druggists turn away customers by talsifying the character of a remedy because they do not happen to have it on band, they do a great wrong. If this afflicted man had not disregarded the druggist's advice and sent elsewhere for the remedy he would without doubt have been in his grave. slanderous declaration of the druggist that Kaskine was nothing but sugar, we append a letter written by the celebrated chemist. Dr. Mott, which requires no com ment:

Gentlegen.-By chemical analysis I have detected the presence of four distinct substances, all of which possess antisymotic and antiseptic properties. The percentage of these constituents is small, yet quite

sufficient, when Kaskine is taken regularly according to the directions, to so influence the blood and the system as to render the same unfavorable to the growth, development or presence of the lower organisms which are the cause of numerous diseases the system is subject to The proper treatment for any disease is one directed toward removing the cause, and this should be done gradually. Knowing the nature of the medical constitu nts of Kaskine, I do not hesitate to recommend it ic public attention. I am, gentlemen, yours respectfully, HENRY A. MOTT, Ph. D., LL. D.,

Analytical and Consulting Chemist. No. 23 Park Row, N. Y. Other letters of a similar character from prominen

ndividuals, which stamp Kaskine as a remedy of undoubted merit, will be sent on application. The Kaskine Company, 54 Warren St., New-York, and 35 Farringdon Road, London.
